

18th March AD 2003 – Dream Record Extract

After an awesome Day in the Lord, slept at 2.30 AM and awoke at 5.30 AM after the seeing the MOST PERFECT NIGHT I ever ever seen in Hong Kong (from the housetop) – recalled earlier in the day, the Telegraph Hill dream in Hawaii in 1985 when seeing the skyscrapers of Hong Kong in the distance “across” the Pacific Ocean, and then realised I had witnessed the current NOW in HK Gold Coast.

The MOST perfect dream sequence since August 5th 2001 came to pass last night.

Awoke the MOST refreshed, I have ever awoken since coming to Hong Kong and beforetimes.

Characters in this dream – me, one Vicar, smoking, an assistant (not robed) with a church – a journey by van with 3-4 people, looking sorely afflicted – bad eyes and bad skin, - a heavy city scene, with a huge fire to the north, and people escaping. Many cars and emergency vehicles stalled and abandoned, - “we” were with the crowds heading south, - left my Bible GOD bag behind – very upset about that.

The scenario may have been Southend-On-Sea but impossible to tell – representative of a large city.

Heard guidance and voices of reassurance at times during this dream sequence, that help explain some of what was transpiring. However, made the mistake of going back to sleep again, and the memories have dimmed – “May The Lord bring The Truth back to my remembrance in The HOLY Name of Jesus”

The Vicar was false and pretended to oversee the church yet the real overseer was the “other man” - I preached to them both and felt compassion for the Vicar who kinda rebuked me and left on his way, puffing smoke. The Vicar had deceived us, by “boasting” in his authority as the “special one” of this church, yet the “other man” confirmed he wanted him out for deceiving

people. (I was carrying bags at the time – still hazy now – BUT – after awaking and refreshing the dream sequence, I felt this incredible morning Peace – so perfect, and so unusual – “may this remain in The MOST Holy Name of Jesus”)

VERY IMPORTANT – During trying to “flee” the city chaos, with warnings rife everywhere, especially as seen by the ambulances and police cars abandoned, and as we walked around a corner, to the Right and onwards further, (Like the bottom of Bournemouth Park Road, (towards the old “factory visions” as a pre-11 year old in 1967), I realised I was dressed in my red shirt and IT RAINED – and I was drenched – PRAISE THE LORD. “we”

– (can’t recall the companions) were led to the DOORS OF A HUGE CHURCH BUILDING, and were being “seduced” in – but it was against my will at that time. As the doors cracked open, I beheld golden wooden seats, with dark bluish/black wrought iron engraved metal poles with arrow-like knobs on top at the left hand sides of the rows of pews. They were ALL EMPTY. The doors were golden wood with bluish/black metal, horizontal slats.

Decided to return back, and was “led” to another scenario, where a wall, dissolved open, and a similar church type door materialised and was ready to enter – (could not see inside this door, this time) – felt that this was a “supernatural” entrance.

Almost like some kind of heavenly game.

NB – Before dozing off, saw one image, a fallen, horizontal, red-brick wall, with a broken dent in the centre, with the brick mortar (crumbled) and visible – Avril’s House In England August AD 2008

CONCLUSION: Deeply Significant.

=====

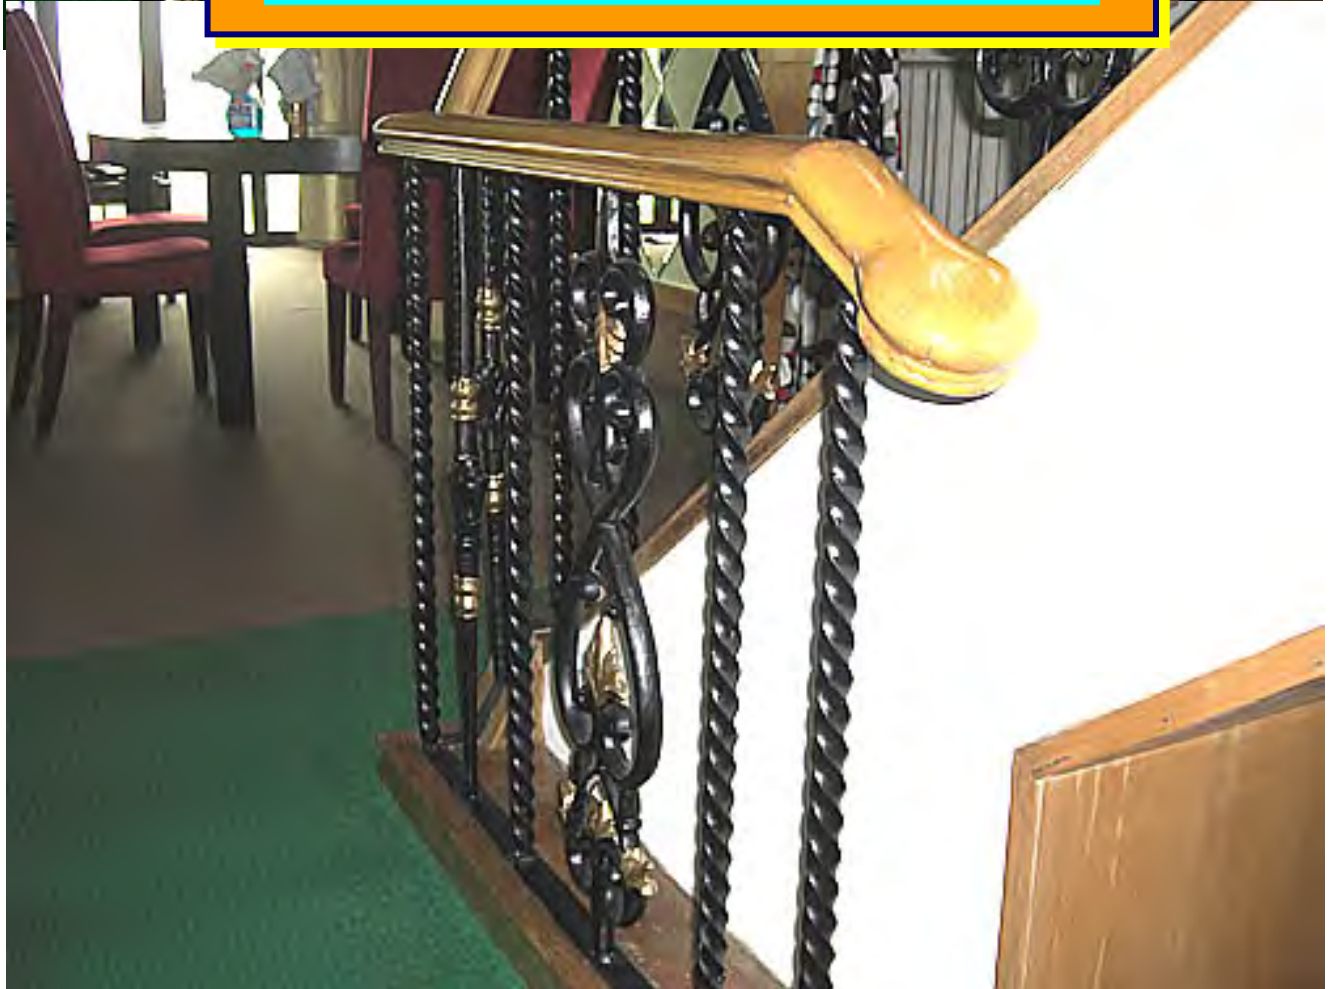

Text above copied from dream record.

NB : Now, since September 1st 2007 here below are some “key digital photos” that match, almost exactly, the dream imagery above, particularly the Front Door and the arrow head wrought iron golden knob imagery.

This is very “eerie” to say the very least and serves as a constant reminder – Amen

TRANSLATION OF THE HOUSE CHURCH THE SUPERNATURAL ENTRANCE IN THE WALL

In 2009 we put up a flat screen wall TV and Worshipped The Lord through GOD TV, on multiple occasions until the Channel was forced to close down because of mean – hard hearted, miserable Hong Kong – NOT ENOUGH DONATIONS...

This was the fulfillment of the Invisible Church Entrance – Amen
